The Hunter PRO-C irrigation controller is a professional multi-purpose controller with a user friendly interface. This controller is mainly used in landscaping and garden irrigation. Default the PRO-C controller is equipped 4, 6 or 8 outputs and is non-expandable.

APPLICATION

Landscaping

CHARACTERISTICS

- ✓ Easy control
- ✓ 3 programs, 4 time starts
- ✓ Easy runtime control from 10-150%
- ✓ Memory safe at power failure
- ✓ Weekdays, even and odd, or date interval
- ✓ Multiple Hunter sensor inputs
- ✓ Battery for external programming and clock time settings
- ✓ 1 minute intervals on time sets of 0-4h
- ✓ Polymer lockable housing on outdoor series with on-board power supply
- ✓ Normal cover on indoor series and external power supply
- ✓ Electronic short cut protection
- ✓ Battery power for external programming and memory safe during power failures

TECHNICAL DATA

Power supply	: 230VAC ±10% 50/60 Hz
Transformer output	: 24VAC 1A
Norm	: CE, UL, cUL, C-tick, FCC
Battery*	: CR2032 3-Volt Lithium (included)
Temperature	: -18 to 60°C

* for external programming only

Valve outputs

Amount	: 4, 6 or 8 valves
Max. output	: 0,56 A per output
Max. output	: 0,28 A pump start/main valve
Max. total output	: 0,84 A (including pump/main valve)

Dimensions

Indoor series	: 16,5 x 14,6 x 5 cm (HxWxD)
Outdoor series	: 22 x 17,5 x 9,5 cm (HxWxD)

Indoor series

Outdoor series (on-board power supply)
